

wirewÜss

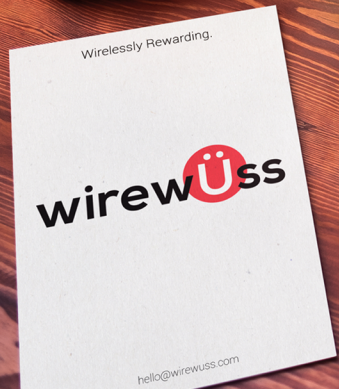

Getting to know our customers makes us better advertisers and marketers. It gives us a goal to work towards better customer service and turnover. Unfortunately, getting to know our customers comes with its prevailing issues.

Here at WirewÜss, our goal is to make your data richer than it ever was. Times are changing, and free WiFi isn't exclusive to just your customers anymore, it should be a powerful tool for you as well.

wirewÜss

With our myriad of tools and datasets, marketing and PR has never been this engaging. As marketers, we know the hassle of having so many datasets. We've organised our data so that everything is easier for you. Let us show you the potential of WiFi, like you've never seen before.

*Insights* offers you the knowledge you need to propose that next marketing campaign, establish POD, or to simply prove a point. All in a single glance.

*Analytics* gives you a fresh perspective to numbers and how you know your customers. Let us study and mine the spreadsheets for you.

*Publisher* aims to simplify the way you conduct your surveys, and engage your users. We will do the hard work so you don't have to.

# RETAIL

Shopping malls, convention halls, boutiques, brick & mortar

Restaurants, Food Courts, Cafes

# F&B

# EVENTS

Festivals, Conventions, Concerts, Fairs
